A fresh Urban Planning graduate enthusiastic about transportation planning, urban mobility, data-driven development planning, and disaster management. Skilled in GIS-based spatial analysis, TIA, and mixed-traffic behavior analysis in Dhaka; aiming to improve road safety, accessibility, and street efficiency while developing expertise in geospatial analysis, and predictive modeling.

Professional Experience

Dhaka Transport Coordination Authority | Internship (November 2025 to December 2025)

Conducted Traffic Impact Assessment (TIA) for a road in Basabo, Dhaka, with the objective of converting it into a Pedestrian Precinct.

- Learned concepts and application of Traffic Impact Assessment
- Conducted detailed traffic survey and utilized PTV Vissim software to create microscopic simulations of the proposed changes.

Academic Qualification

Bachelor of Urban and Regional Planning (BURP)

Bangladesh University of Engineering & Technology (BUET), Dhaka-1000, Bangladesh

Passing Year: June 2026, CGPA: 3.70 out of 4.00

Thesis: Flow Behavior of Rickshaws and Battery-Operated Three-Wheelers in Dhaka Traffic

Academic Achievements and Certifications

University Stipend in 2022 and University Merit Scholarship in 2023: Achieved for excellent academic result at undergraduate level from Bangladesh University of Engineering & Technology (BUET)

Excel Skills for Business Specialization | [Certification - Coursera](#) (2023): Was completed to strengthen Excel-based data analysis, forecasting, modeling and dashboard skills for handling datasets and support data-driven decision making.

Co-curricular Activities

- Bangladesh Institute of Planners (BIP) - Secretary, Student Chapter (June 2025 to June 2026)
- URP Students Association of BUET (USAB) - Vice President (June 2025 to June 2026)

Technical Skills and Tools

- Programming Language: Python, R, C
- Statistical Analysis: Python, R
- Mapping and Spatial Analysis Software: ArcGIS
- MS Office Package: MS Word, MS Power point, MS Excel, MS Access, MS Project
- Graphics Software: Adobe Illustrator, Adobe Photoshop, CapCut
- Design and Modeling: AutoCAD
- Traffic flow simulation: PTV Vissim
